Computer Science and Applied Statistics
University Of Cape Town

03/2017 - 03/2022

Major(s)
- Computer Science
- Applied Statistics

WORK EXPERIENCE

Software Engineer
Mohara Ventures

12/2021 - 2022   *Cape Town*

Achievements/Tasks
- Worked as a Front-End developer lead on a project using React(Nextjs),Typescript and mui 5 for styling. Utilised storybook and chromatic tools to facilitate UI code reviews.
- Undertook technical analysis for wikijs , a documentation tool before adopting it on a project. Also did technical analysis of integrating strings(website copy management) in new projects to help improve collaboration between developers , designers and content writers.
- Worked as a React Native developer to make a cross platform e-commerce mobile application.

Contact : Maarten Mantel - maarten@mohara.co

Software Engineering Intern
Vodacom

06/2019 - 07/2019   *Cape Town*

Achievements/Tasks
- Assisted in the development of a mobile application that made use of AI to detect images of equipment in Vodacom sites. Got exposure to the Ionic and Angular javascript frameworks.
